

We are delighted to invite you to join us for a Belux lunch meeting with  
Natalie Shiori Fleming discussing

## The future of Fintech in Japan

*And how to adapt your business to the digital era*

While Japan is still a largely cash based society, it is quickly moving into the digital era. Since a couple of years, the regulators are stepping in to allow digital financial firms to provide better services to customers. Since then the number of startups and innovations have started to flourish in Japan, and the market is expected to grow by x6 times by 2020.

Natalie Shiori Fleming will share her unique insights on the various Fintech innovations in Japan and how they will transform the way your company will operate in the digital world.
