ENGINEER STUDENT /

EMBEDDED SYSTEMS & AUTOMATION

EDUCATION

2014-2017 /

BACHELOR IN INDUSTRIAL ENGINEER SCIENCES / IT
@ISIMs (Institut supérieur industriel de Mons)

This bachelor taught me the basics needed to start a master's degree in engineering. In this bachelor, I had the chance to study magnetism, electricity, mechanics, thermodynamics and to deepen my knowledge in chemistry and physics. But these years were mainly focused on the study of mathematics, computer science (coding, database,...), signal processing, automation and electronics.

2017-... /

MASTER IN EMBEDDED SYSTEMS & AUTOMATION
@ISIMs

In this master, my institution provides me with targeted courses and allows me to step up on different topics specific to my future specialization: real-time systems, parallel programming, automation, embedded computing, operating systems, real time scheduling, database , signal processing.

EXPERIENCE

2015-2018 /

SALES MANAGER - MULTIMEDIA SECTOR
@Cora Market
La Louvière, BEL

This student job allows me to cover my school and extracurricular expenses but especially allowed me to professionalize myself in a sales area and learn a lot in teamwork, product management, sales managing, ...

04.2017-06.2017 /

VR PROJECT PROGRAMMER INTERN
@Kraken Realttime
Charleroi, BEL

During this internship, I realized a set of features and tools for a real time 3D environment in virtual reality and android tablet. To develop these tools, I used the C # language on the Unity3D software that allowed infallible real-time calculations on Oculus hardware. This internship taught me a lot about real-time programming and virtual reality but also about the organization and realization of a project in a professional team.

PERSONAL QUALITIES

- Passionate
- Hard-worker
- Pragmatic
- Team-worker
- Learn fast
- Imaginative
- Punctual
- Motivate
