

Webinar :

Synergies between the Semi-Conductor Valley in Flanders (Belgium) and Silicon Island Kyushu (Japan)

This webinar will give you a better understanding of the semi-conductor industry in Belgium and Japan, by presenting the ecosystem, interesting innovations and developing trends, and exploring possible synergies. A Japanese and Belgian company will also explain their business model and way forward through international expansion. At the end the speakers will take your questions.

PROGRAM

The semi-conductor ecosystem in Flanders *by DSP Valley*

Introduction and Semiconductor Ecosystem in Kyushu *by SIIQ*

Challenges and trends in semi-conductor technologies *by Imec*

Introduction of IDELA -To Support IoT Device Prototyping By Utilizing "Minimalfab *by National Institute of Advanced Industrial Science and Technology, Kyushu Center*

It's about Quality/Time: Melexis in Japan *by Melexis*

MEMS and microfluidic manufacturing service *by Kyushu Semiconductor KAW Co Ltd*

EVENT DETAILS

Date: Thursday 3 March 2022 (8:00AM-9:30AM Belgium 4:00PM–5:30PM Japan)

Language: English-Japanese/Japanese-English simultaneous interpretation is provided

Zoom Online Seminar

Free of Charge
