FOCUS
ON
BUSINESS
SUMMIT

Smart Manufacturing Summit by Global Industrie will take place from 13th to 15th March 2024 in Aichi Sky Expo, Japan.

An event dedicated to smart manufacturing development between Europe and Japan.

Find out more in our newsletter about the event, its components and its ambition. So many reasons to attend its first edition!

The Business Summit is one of the components of the event. At the crossroad of different views, by sharing opinions and ideas of Governments, Institutions, Corporates, Startups, the Business Summit is here to open minds, to inspire and start building the new path of Industry 5.0. With more than 60 speakers attending, it will gather a large diversity of opinion leaders, 50% from Japan and 50% from other countries, especially Europe.

01. EXOTEC

SPONSOR OF THE BUSINESS SUMMIT

EXOTEC

Exotec® is a robotics company established in France in 2015 and expanded into Japan in 2019. Their main product? Skypod® robot, an autonomous mobile robot, part of their warehouse automation solution, the Skypod System. Operational in over 100 client sites in 15 countries worldwide.

Learn more about their solutions to transform logistics from a business bottleneck to a strength during their keynote session of Business Summit.

They will exhibit their actual robot and conduct an automated warehouse demonstration.
