FOCUS
ON
INNOVATION
SHOWCASE

Smart Manufacturing Summit by Global Industrie will take place from 13th to 15th March 2024 in Aichi Sky Expo, Japan.

Innovation is at the heart of Smart Manufacturing Summit and has a prominent place in the event through the **Innovation Showcase**.

If you're still hesitating, read our last news and take the opportunity to attend!

The **Innovation Showcase** connects the most promising **industry 5.0 startups** with industry leaders, corporates, innovation ecosystems and institutional partners. It combines pitches' area and specific startup corners for networking and lead generation.

As a startup:

- **Give visibility** to your brand and pitch in front of an audience of industry leaders and investors.
- **Look for funding opportunities** by meeting with investors, accelerators, innovation partners and institutes, which allow you to develop your business.
- **Get a chance to network and generate leads** before, during and after the event with our matchmaking solution.

If you're still hesitating, read our last news and take the opportunity to attend !

01. DASSAULT SYSTEMES SPONSOR OF THE INNOVATION SHOWCASE

Dassault Systèmes provides a "**3DEXPERIENCE Platform**" that accelerates innovation in manufacturing by connecting organizations and various operations with the latest digital technology "**Virtual Twin Experience**" **CATIA, SOLIDWORKS, DELMIA, SIMULIA, ENOVIA**, etc. They provide a wide range of solutions from 3D design to system development, various simulations, product data management, and digital manufacturing. During Smart Manufacturing Summit, they will introduce the world of virtual commissioning realized by the **3DEXPERIENCE platform**, welcoming **Yutaka Electronics Industries, Ltd.** as their guest.
