

**Mohamed Ourdane**  
**Chief Security Officer**  
**POST Luxembourg**

Holder of a PhD in atomic physics, Mohamed Ourdane, 54 years, is the Chief Security Officer of POST Luxembourg. Knowing that the overall digitalization will put information in the heart of the economy, he sets up a global cyber-security strategy and organization (POST CyberForce) aiming at playing a key role in that domain.

After an experience as researcher at the Stockholm Institute of Physics and as MPLS, OSS/BSS & Security specialist at Cisco Systems Belgium, Mohamed joined POST Luxembourg in 2002. His previous mission was to lead the transformation of the infrastructure service of the Telecom Division in order to prepare the bases of both all IP core business transformation and cloud services.
