Professional Summary

Experienced and hands-on Glazier and Solar Installer with over a decade of construction experience across Australia, Japan, and Europe. Proven leadership as Site Manager and Foreman on large-scale solar farms (up to 90-person teams), and extensive background in window, door, and fencing installation for top-tier glazing companies. Combines field expertise with technical adaptability and a strong interest in AI-based workflow automation and digital transformation in construction environments.

Professional Experience

Project Coordinator / Quality Manager / Team Lead

RL Solar, Japan (Remote + On-Site) | Aug 2024 – Present

- Assisting with international operations and ongoing digital transformation initiatives.
- Spearheaded project scheduling and resource allocation using MS Project and team coordination tools.
- Oversaw contract review processes and provided technical input for quotation preparation and bid packages.
- Implemented workflow automation solutions to reduce manual errors and improve inter-team communication.
- Led small task team for construction and provided quality management oversight on new project launches as a team leader in the Hokuto project 4 MWp following METI guidelines.
- Created digital media and business materials including promotional videos, internal presentations, business cards, and digital flyers to support branding and communication.

Pool Fencing Supervisor

Glazedco, Sydney, NSW | Feb 2023 – Dec 2023

- Supervised the installation of high-end pool fences, balconies, stairway barriers, shower screens, and mirrored panels in premium high-end residential properties.
- Coordinated internal team members on fast-paced, detail-oriented projects typically completed within two days for an average of 30 m of pool fence.
- Ensured top-tier quality and aesthetic standards for ultra-high-net-worth clients, with responsibility for client interaction, on-site decision-making, and immediate issue resolution.
- Oversaw material sourcing, site logistics, tool readiness, and worker scheduling for seamless site execution.
- Maintained strict compliance with site safety protocols and Australian construction standards such as electrical grounding , structural integrity , etc

Window & Door Installer

Unifenster, Europe | Aug 2022 – Dec 2022

- Installed PVC and aluminum window and door systems across residential and commercial properties in Europe.
- Specialized in handling and mounting single, double, and triple-glazed units with attention to thermal insulation and energy efficiency.
- Read and interpreted installation schematics, building codes, and manufacturer instructions to ensure precise fitting and finish.
- Applied silicone sealing, used levels, string lines, and fasteners to secure structures within millimeter tolerances.
- Communicated with site managers and clients to coordinate deliveries, schedule fittings, and report any construction issues.
- Handled installation of various glass and glazing systems including double- and triple-glazed doors, windows, and garage doors using PVC and aluminum framing.

Site Manager / Foreman – Solar Projects

RL Solar, Australia | Sept 2019 – Feb 2020

- Part of the lead site operations on large-scale solar farms including Limondale and Kiamal, managing teams of up to 90 workers and coordinating across departments.
- Acted as the main on-site liaison between field crews and site manager, ensuring all timelines and targets were met or exceeded.
- Performed and delegated quality checks, remedial tasks, and mechanical/mounting operations with high precision using tools like MS Project and QGIS.
- Oversaw piling, string line setup, racking system deployment (including S-Rack), and solar panel alignment under tight schedules.
- Delivered projects while ensuring adherence to environmental, health, and safety regulations.
- Supported upper management as Foreman and Coordinator, preparing schedules and reports.

Qualified Labourer

RM Watson, Sydney | Mar 2019 – Aug 2019

- Performed structural and remedial repairs on roofs of commercial high-rises and residential towers in Sydney’s CBD.
- Assisted with waterproofing and sealing of building envelopes to ensure long-term structural integrity.
- Operated power tools and followed high-access safety procedures.
- Worked with site supervisors and contractors to deliver urgent repairs on time.

General Labour / Contractor Roles

Various, Sydney | Oct 2018 – Feb 2019

- Worked on demolition, concrete work, landscaping, rendering, painting, and structural repair.
- Involved in swimming pool installations: excavation, plumbing, framing, lining, waterproofing, tiling, cleanup.
- Adapted to multiple sites and roles with initiative and reliability.
- Maintained clean, organized, and hazard-free worksites.

Window & Door Installer

Sibel PVC / Unifenster, Belgium | Jan 2010 – Sept 2018

- Installed manual/electric blinds, garage doors, PVC windows for both apartments and private homes.
- Carried out full removal and new installation of frames and units.
- Conducted post-installation testing (sealing, insulation, water resistance).
- Helped onboard junior staff and handled equipment logistics.
- Ensured installations met EU quality, thermal insulation and noise reduction standards.

Skills

- **Site Management:** Team Management (1–90 workers)
- **Project Coordination:** Scheduling, Contract Review
- **Project Support:** Site tracking, QA/QC process setup, documentation, team onboarding
- **Solar Farm Installation:** S-Rack Mounting, Mechanical Mounting , Quality management
- **Window & Door Installation:** PVC, Aluminum, Garage
- **Glazier:** Pool Fencing, Shower Screens, Balcony & Stair Glass Installation
- **Demolition work:** Demolition & Structural Repairs
- **Workflow Automation:** Digital Quotation & Quality Control Systems
- **Multimedia Creation:** Video Editing, Photoshop, Presentation Design, Illustrator, Adobe Premiere
- **AI Tools:** n8n, RAG pipelines, Local LLM deployment, Fine tuning (Ex: Creation of automations for quotation and local rag system for company’s information retrieval saving time and avoiding errors)
- **Web:** HTML, CSS, SEO, WordPress , Shopify
- **Programming language:** PYTHON, JAVA
- **Soft Skills:** Team leadership, adaptability, problem-solving, client relations
- **Languages:** French (Native), English (Professional), Spanish (Intermediate), German (Intermediate), Arabic (Basic), Japanese (Basic)

Education

- | | |
|--|-------------|
| - Japanese Language School, Tokyo | - 2024–2024 |
| - Google Digital Marketing Certificate (Google Digital Garage) | - 2024 |
| - Industrial Electrician Training, TechnoCampus | - 2021–2022 |
| - TEFL Certification, ITTT Online | - 2020 |
| - Private Pilot License (PPL), Belgian Flight School | - 2009–2014 |
| - EF Language School (English & German), London & Munich | - 2007–2008 |
| - Secondary Education | - 2001–2007 |

Additional Certification & Training

- Driving License (International)
- Emergency First Response & Life Saving (Red Cross Australia)*
- Fire Drill & Safety Inductions *
- Telehandler Operation (Australia)*
 **expired, but training completed*
